## Steamship Powhatan Was Only Slightly Damaged.

## COLLIDED WITH TWO BARGES

Ira A. Allen and Elheurah Lost and Two Narrowly Escape With Lives—Increase of Coal Shipments at This Port—Marine Notes.

The Merchants & Miners Transportation Company's steamer Powhatan, which collided with and sank the barges Ira A. Allen and Elheurah, off Pomham light, near Providence, R. I., Sunday morning, arrived in port yesterday and proceeded to Baltimore after discharging passengers and freight here. The Powhatan was only slightly damaged in the collision and the cost of repairing her will not amount to a large sum. Several plates around the steamers bow were bent by the force of her striking the barges, but otherwise she is uninjured.

Both the Ira A. Allen and the Elheurah filled with water and sank shortly after the collision. Two men on the Allen and a man and a woman on the Elheurah narrowly escaped being carried down with their vessels.

Fortunately the small boat of the Allen drifted off as that vessel went down and Captain Charles Orlett and his brother climbed in. They rescued the man and the woman who had been washed from the deck of the Elheurah.

After the collision the Powhatan returned to Providence, but she sailed a few hours later. It is expected that the necessary repairs will be made to the steamer at Baltimore, but nothing definite concerning the circumstances of the accident or the amount of the cost of repairing the Powhatan could be learned at the local office of the Merchants & Miners Transportation Company yesterday.

## GREAT INCREASE IN COAL SHIPMENTS

Newport News Leads Norfolk in Coal Output—Shipments From Both Ports on the Increase.

The monthly statement of the bureau of commerce and labor shows that during the month of September of this year both this port and Norfolk shipped more coal than they did during the same period of the previous year and that Newport News ranks ahead of the city across Hampton Roads in the output of coal.

This port shipped 259,103 tons of coal during September this year while 232,993 tons were exported in September, 1904. In September of this year Norfolk shipped only 227,683 tons, or just 31,420 tons less than was sent out from this port. In September, 1904, Norfolk shipped 190,598 tons which was 42,395 tons less than the total amount of coal shipped from this port during the same period.

Boston receives the largest portion of the coal shipped from both this port and Norfolk, but large amounts are sent to Providence, Bangor, Plymouth and Portland, Me.

## Survey Completed.

The survey of the four-masted schooner Edith L. Allen has been completed at the local shipyard, and the seams of her hull are now being caulked to stop the leak which caused the vessel to put into Hampton Roads for shelter on October 27. The Allen is loaded with phosphate copper ore and is bound from New York for Santiago. It is expected that she will sail the latter part of this week.

## Repairs to Boilers.

Repairs are being made to the boilers of the whaleback steamer Bayview at the local shipyard. It is reported that the vessel's boilers developed a slight leak during her last run down the coast from Lynn. The work will be completed in a few days and the Bayview will load a cargo of coal.

## Testing Boiler.

Fire was made in the boiler of the ferryboat tender Buffalo at the local shipyard yesterday and the boiler is now being tested. The Buffalo will be completed in ten days, after which she will sail for New York.

## WILL BE TESTED ON ROCKLAND COURSE

Battleship Virginia Puts to Sea Saturday for Rockland, Me., for Her Officials Trials.

It was announced yesterday that the battleship Virginia will be tested on the new standardizing course at Owl's Head Island, off Rockland, Me., and not over the Provincetown, Mass., course, where the protected cruiser Charleston was tried. The water on the new Maine course is considerably deeper than it is on the Provincetown course and it is believed that a vessel can make better speed on the former than she can on the latter.

The Virginia will put to sea on her first voyage Saturday morning about 11 o'clock. She will be manned by a crew of about 550 men and a large number of naval officers and officials of the yard will be aboard.

The final preparations for the departure of the big fighter began yesterday morning when the furniture, beds, hammocks, etc., for the use of the officers and crew, were put on the vessel. Provisions will be put on the Virginia about two days before she sails.

## TAFT DUE IN ROADS

## Secretary of War Returns From Panama Today.

## ON FAST CRUISER COLUMBIA

Head of War Department Has Been on

Tour of Investigation in Panama—Will Make Report of His Findings to President Roosevelt.

The United States protected cruiser Columbia, Commander J. M. Boyer, commanding with Secretary of War Taft and party aboard, is due in Hampton Roads this morning from Panama, where Secretary Taft made a tour of investigation during the past three weeks. Upon his arrival at Old Point, the secretary of war will disembark from the Columbia and take the steamer for Washington, where he will make a report of his findings of the condition of Panama to President Roosevelt.

The Columbia left Panama for Hampton Roads last Tuesday, but she had to stop at the naval coaling station at Guantanamo, Cuba, for coal and she did not sail from that station until Friday. The Columbia is the fastest cruiser in the navy and she should arrive in the Roads early this morning.

The Columbia sailed from Hampton Roads for Panama with Secretary Taft and his party on October 28 and she arrived at Panama on November 2. The head of the war department made a thorough investigation of the Panama canal while in Panama and that will be the chief subject of his report to the president.

## PSORIASIS AND ECZEMA

Milk Crust, Tetter, Ringworm, and Scalled Head, and Every Form of Torturing, Disfiguring Humors from Infancy to Age.

## CURED BY THE CUTICURA REMEDIES

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in milk crust, tetter, and salt rheum—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures and humour remedies of the civilized world.

## CAPT. GRAHAM'S CURE Of Distressing Humour.

Captain W. S. Graham, 1321 Eoff St., Wheeling, W. Va., writing under date of June 14, '04, says: "I am so grateful I want to thank God that a friend recommended Cuticura Soap and Ointment to me. I suffered for a long time with sores on my face and back. Some doctors said I had blood poison, and others that I had barbers' itch. None of them did me any good, but they all took my money. My friends tell me my skin now looks as clear as a baby's, and I tell them Cuticura Soap and Ointment did it."
